D2 Competition 75

Marlow®

The new D2 Competition 75 has been developed specifically for enthusiastic sailors and club racers wishing to take advantage of the high strength, low stretch benefits of Dyneema®

Competition 75 is designed to bridge the gap between traditional polyester ropes like Marlowbraid and high performance ropes such as Marlow's new D2 Racing 75.

Manufactured using Dyneema® SK75 cores, Competition 75 incorporates a polyester inner-braid and a new hardwearing 16-plait polyester cover. This construction offers increased strength and reduced extension at working loads when compared to polyester ropes.

Special features

24% stronger than Marlowbraid

Less than 1/3 of the stretch of Marlowbraid

Excellent abrasion resistance

Hardwearing polyester cover

Easily spliced

Colours available

Red	
Blue	
Green	
White	

Applications

Main/Genoa halyards and sheets
Spinnaker/Asymmetric halyards and sheets
Main outhaul
Spinnaker guys
Uphauls/downhauls
Furling system
Control lines

Diameter		Average break load		Weight	
8mm	5/16"	2025kg	4464 lbs	4.83 kg/100m	3.52 lbs/100ft
10mm	7/16"	3950kg	8708 lbs	7.63 kg/100m	5.13 lbs/100ft
12mm	1/2"	5360kg	11817 lbs	9.71 kg/100m	6.52 lbs/100ft
